Code a retro game

Code a retro game

- Sample prompt:

  Code a simple and fun retro game. Output as single-file HTML, JS, CSS.

- Run the game locally:
  - Open your local notepad editor and save the file in a folder (that you can find), e.g. retrogame.html
  - From your Browser, e.g., Click Open and run the file
- Talk to the code to make improvements

Code your own version of Space Invaders

- Sample prompt:

  Code Space Invaders. Output as single-file HTML, JS, CSS.

- Save and run the game locally:
  - Open your local notepad editor and save the file in a folder (that you can find), e.g. spaceInvaders.html
  - From your Browser, e.g., Click Open and run the file
- Personalise, iterate, make improvements
