

OpenCode Installation Guide

Free AI Coding in Your Terminal — Zero Cost Setup

What is OpenCode?

OpenCode is a free, open-source AI coding assistant that runs in your terminal. It can explain code, write code, fix errors, and help you learn — all without leaving the command line.

WINDOWS INSTALLATION

Step 1: Open Terminal

Press the **Windows key** → type **PowerShell** or **Command Prompt** → open it

Step 2: Check if Node.js is installed

Type this command and press Enter:

```
node --version
```

■ If you see a version number (like v20.11.0) → Skip to Step 4

■ If you see 'not recognized' → Do Step 3

Step 3: Install Node.js (only if Step 2 failed)

1. Go to <https://nodejs.org>
2. Click the big green **LTS** button
3. Run the installer (Next → Next → Finish)
4. **Close PowerShell completely**
5. **Reopen PowerShell** (this is critical!)
6. Run `node --version` again to verify

Step 4: Install OpenCode

```
npm i -g opencode-ai
```

Step 5: Launch OpenCode

```
opencode
```

MAC INSTALLATION

Step 1: Open Terminal

Press **Cmd + Space** → type **Terminal** → press Enter

Step 2: Install OpenCode

```
curl -fsSL https://opencode.ai/install | bash
```

Step 3: Launch OpenCode

```
opencode
```

CONNECT TO FREE MODELS (Everyone)

Once OpenCode opens, follow these steps:

1. Type `/connect` and press Enter
2. Select **OpenCode Zen**
3. A browser window opens — sign in with Google or GitHub
4. Copy the API key shown
5. Paste it back into the terminal
6. Type `/models`
7. Select **Grok Code Fast 1** (free)
8. Start typing prompts!

■ **That's it! No credit card. No subscription. Just start coding.**

TROUBLESHOOTING

Error	Fix
'npm' is not recognized	Node.js not installed. Do Step 3.
'node' is not recognized	Close and reopen PowerShell after installing Node
'opencode' is not recognized	Close terminal completely, reopen, try again
execution policy error	Run: <code>Set-ExecutionPolicy -Scope CurrentUser -ExecutionPolicy RemoteSigned</code>
EACCES permission denied (Mac)	Run: <code>sudo npm i -g opencode-ai</code>
<code>/connect</code> not working	Check your internet connection, try again

Free models available: Grok Code Fast 1 • GLM 4.7 • MiniMax M2.1
